### Really Hot Chili Peppers + Hellcyon

On stage presence alone The Really Hot Chili Peppers were even better than the real thing! Having seen the real Chili's twice I did not expect anyone to be able to outdo them but the Really Hot Chili's sure did!

Really Hot Chili's had a fantastic set list. With classics such as Aeroplane & Under The Bridge to more recent ones such as Hump De Bump & By The Way. Power Of Equality was definitely the song of the night with not a person left standing still. Throughout their performance they kept up the energy & got the audience involved.

As a whole the Really Hot Chili Peppers had the stage performance, fantastic set list & enough energy for everyone in the room. I would definitely recommend them & see them again when they return to Mr Kyps. My only worry is that as they gather fans you'll be lucky to get tickets!
